PROFILE

Passionate Front-End developer with one year full-time experience in web development. Knowledgeable in user interface, testing, and debugging processes. Proficient cutting-edge technologies, including TypeScript, JavaScript, HTML, CSS, React JS, Next JS, React Hooks, Redux, Context API, RESTful APIs, AJAX (Axios and Fetch). Effective in self-managing independent projects, collaborating in team settings and eager to master Back-End Development.

TECHNICAL SKILLS

- HTML and CSS
- TypeScript
- JavaScript (ES12), React JS, and Next JS
- React Hooks, Redux, Context API
- RESTful APIs, AJAX (Axios and Fetch)
- Firebase, MongoDB
- Node JS, Express, Git

EXPERIENCE

Junior Web Developer at Dealsourcr Ltd, London
August 2020 – Present

- Designed and developed a dynamic web page using HTML, CSS, and React JS.

- Worked on CSS background, CSS positioning, CSS text, CSS border, pseudo-classes, pseudo-elements.

- Applied media queries to create a responsive website across different sizes of screens.

- Fixed bugs, broken links, missing images, and rectified other front-end errors.

- Designed the website and maintained the website content up to date.

- Used Git for project management and version control.

EDUCATION

Centro Universitário Senac, Insurance Technician
August 2014 – August 2015

Environmental Engineering, Universidade Federal do Espírito Santo, Brazil
 August 2011

CERTIFICATIONS

React - The Complete Guide|Udemy | Mar '2021

React - Front to Back |Udemy | Jan '2020
